The "Polar Vortex" has us all looking for sunny skies and warmer weather. It's the dreary cold weather having this effect on all of us. If you're really looking forward to summer, why not go ahead and book a mini-vacation? We have plenty of availability, and you'd be able to choose your dates early. Check out our [rental page](#) for more information.

After you book that vacation, we'd like to encourage you to get outside. Really! It's not terribly cold outside, so it's the perfect time to enjoy [hiking trails](#) at Russell Lands or other places around Lake Martin.

Russell Lands offers over 100 miles of lush wooded trails for your hiking, biking or equestrian enjoyment. [Click here](#) for more information . .

You may also want to check out Smith Mountain in Jackson's Gap with the historic Smith Mountain fire tower. The trail is family and pet friendly. You'll have many opportunities to experience the area's wildlife and beautiful views.

It was a pleasure working with Rhonda on the sale of our home in StillWaters. Rhonda gave us continuous updates, ongoing market research and was very diligent in getting the sell closed. Rhonda is a true professional in the Lake Martin Area and very dedicated to helping her clients win in a tough market.
